Maternal antigen avoidance during lactation for preventing atopic disease in infants of women at high risk (Review)

Kramer MS

Status: *Withdrawn*

This record should be cited as:

Kramer MS. Maternal antigen avoidance during lactation for preventing atopic disease in infants of women at high risk. *Cochrane Database of Systematic Reviews* 1996, Issue 4. Art. No.: CD000132. DOI: 10.1002/14651858.CD000132.

This version first published online: 21 October 1996 in Issue 4, 1996.

Date of most recent substantive amendment: 08 July 1996

The editorial group responsible for this previously published document have withdrawn it from publication.

REASON FOR WITHDRAWAL

The 'Maternal antigen avoidance during lactation for preventing atopic disease in infants of women at high risk' (The Cochrane Library, Issue 4, 1996 to Issue 3, 2003) has been withdrawn because it has been included in the updated Review 'Maternal dietary antigen avoidance during pregnancy and/or lactation for preventing or treating atopic disease in the child', first published in Issue 4, 2003 of The Cochrane Library.

This combination was suggested by colleagues in the field, by the Cochrane Pregnancy and Childbirth Group's (CPCG) editors, and by the CPCG's Consumer Panel.
